PRIORITY

Department telegram 1094

Local reports Hermes Lima press conference October 30 contain no reference possibility Brazil calling MFM on Cuban crisis. We have no indications GOB presently thinking of calling such meeting, which in past it has been anxious avoid on ground it would oblige it take public position on problem which constitutes divisive domestic issue. Some evidence GOB thinking more in terms UN than OAS action on Cuba, with particular reference recent Brazilian initiative re de-nuclearization Latin America.
